

Dear Students & Parents,

We are pleased to inform you that the Suryadatta Junior College has invested this year in “BYJU’S - The Learning TV”, which gives you access to BYJU’S content to be used in the school as a learning aid at home!

Here is a note on how the BYJU’S Learning Program can make a student fall in love with learning and help them become lifelong learners going way beyond just preparing for exams. Our engaging learning programs offer **videos, tests, recommendations and quizzes** that guide students to learn and understand concepts better.

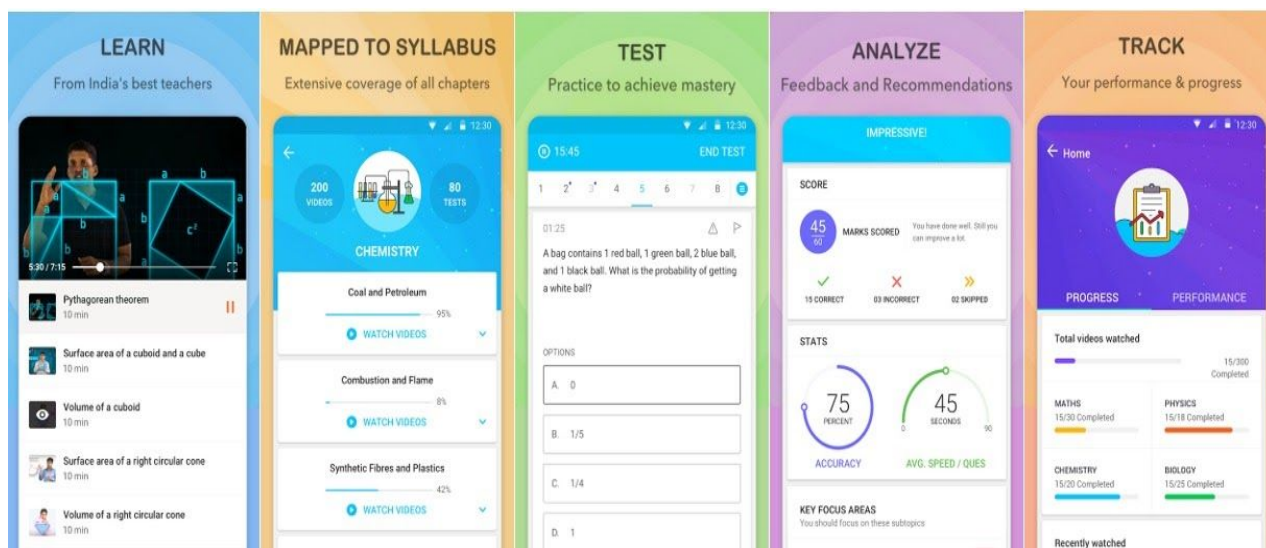

Features for curriculum oriented studies

- Previous years of exam papers for higher grades.
- Subjective and Objective practice. (Including competitive prep).
- Sample Papers in addition to previous year papers.
- School Syllabus.
- Textbook Solutions.
- Solutions for reference books.
- Extra Subjective questions provided during exam time for practice.
- Personalized diagnostic tool kit to realize areas of focus.

Features for conceptual learning, competitive exams

- **Concept Clarity** -focuses on explaining concepts with the simplest explanations and language (assisted with subtitles).
- **Visual Learning** - the videos are designed to use everyday examples for the children and increase their interest in the subjects; concepts are understood faster and better.
- **Self Study** -50% of the understanding comes from self-study (not including homework); 20 minutes a day on the tablet is enough to complete a module and understand the concept.
- **Adaptive Learning** - Integrating all the features with adaptive learning helps the children study at their own pace, as each lesson and course intuitively adjusts itself to the learning pattern and aptitude of the child (monitored by mentor)
- **Mock Test** -This is provided for both curriculum-related examinations as well as competitive exams. It helps prepare the students for the final examination.

- **Extra relevant study materials** sent based on the difficulties faced by the student (on a particular topic)- based on the analysis by the mentor. (Feature of Adaptive Learning)
- **Online Portal** -A 24x7 on-line portal is provided to enrolled students to resolve their doubts at any time.
- **Quizzo** - Games and quizzes for checking conceptual understanding and competing with other students around the world. This is more popular with younger students.

BYJU's - The Learning App

This an Add on Feature for a Limited Period : BYJU'S LIVE CLASSES

Here are all the interactive live classes
we have for you this week!

Class 11(JEE,NEET2020)	Tuesday's , Thursday's , Saturday's	5.00pm
Class 12(JEE,NEET2020)	Monday's , Wednesday's , Friday's	5.00pm

BYJU'S LEARNING TV

BYJU'S LEARNING TV in SURYADATTA JUNIOR COLLEGE

BYJU'S Learning TV

The BYJU'S Learning TV supports teachers by integrating technology and education to provide an enriching learning experience for their students. The learning module combines –

Proven pedagogical methods

Put together by a strong
1000+ member R&D team

Innovative technology

Visualization helps students
understand **complex concepts in
a simple manner**

Visual and Interactive Learning Techniques

Ensures a **complete learning
experience** for students

A teacher's expert guidance and the BYJU'S Learning TV together can make learning simple, fun, inspiring and engaging for every student in your school.

Bring concepts to life in the classroom

Encourage every type of learner

Build active and impactful learning spaces

Mentor and facilitate a tech enabled learning experience

Celebrate better learning outcomes

Promote student-teacher collaboration and improve in-classroom learning

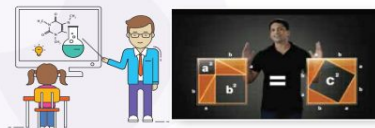

Easy to use learning resources mapped to the syllabus

Together we can create better learners

Teachers begin a new chapter in the classroom

Further explore the chapter with the BYJU'S Learning TV

Interactive videos and fun animations to bring concepts to life

Test the student's understanding and strengthen concepts

Continue the learning journey in the classroom
